

## M40C3 40 kW (60 Hz, 1800 rpm, 3ph)

DC system uses reliable

relays instead of an

unrepairable printed

circuit board

Dry air filter silences

intake noise

Full flow, spin-on oil

filter with air bleed

## FEATURES AND BENEFITS

**ENGINE BLOCK** - Four cycle, 4 cylinder, liquid cooled, dry turbocharged, overhead valve diesel. The induction hardened, forged carbon steel crankshaft is stronger than cast iron while the cross flow head makes for more efficient breathing. Helical cut and ground, carbon steel timing and PTO gears reduce noise.

**COOLING SYSTEM -** Standard keel cooling. Cast aluminum expansion tank with coolant recovery type filler cap. Thermostat for quick warm up and safety. Cast iron exhaust manifold has two pass jacket-water flow for even temperature control.

**FUEL SYSTEM -** Easy to service mechanical, direct injection fuel system. Spin on fuel filters with air bleed. Mechanical fuel transfer pump with manual priming plunger.

**INTAKE AND EXHAUST -** The M40C3 is fully compliant with US EPA

Tier III emission standards. Its dry air filter silences intake noise.

**LUBRICATION SYSTEM -** Full flow, spin-on oil filter with bypass. 10.5 qt

(10 ltr) center well oil pan. Closed crankshaft vent system keeps oil vapor inside engine for clean engine room.

**DC ELECTRICAL SYSTEM -** The DC System uses reliable relays instead of unrepairable printed circuit boards. 12 volt system includes circuit breaker, starter motor and alternator with integral regulator.

**CONTROLS** - Standard flush mount S-3C control panel has hour meter, oil pressure gauge, coolant temperature gauge, DC voltmeter, stop-start switch and preheat switch. Expandable up to six panels, up to 110 feet from the set. Low oil pressure and high coolant temperature shutdowns are standard.

 Welded steel base frame with drip pan and plateform mounts to isolate vibration

AC GENERATOR - The Northern Lights, direct coupled, four pole, revolving field, four lead re-connectable generator has Class "H" insulation and a prelubricated bearing and features a conservative heat rise rating of 95°C/50°C ambient. Engines and generators are torsionally matched for long life. Automatic Voltage Regulator (AVR) gives quick +/-1% RMS no load to full load voltage regulation. AVR has circuit breaker protection.

Large aluminum expansion

tank

**Special Equipment** - Northern Lights Commercial Series gensets are made for the demands of the marine environment, with features including a rugged, welded steel base frame, captive vibration isolation mounts and a belt guard for operator protection.

Accessories and Optional Equipment - Match your generator set to your job requirements. Optional equipment includes front power take-off (PTO) with 12 or 12V electric clutch and SAE B spline providing up to 48 HP. Heat exchange cooling is available with 3 inch wet exhaust. Add a dry muffler with 18" SS flex. Alarms are shutdowns can be installed for low oil level, raw water flow and overspeed.

## SPECIFICATIONS AND DIMENSIONS

AC Output <sup>1</sup>		Installation Data & Weight	
40 kW	60 Hz, 1800 RPM	Dry exhaust elbow	3 in (76 mm) OD
Voltage/Amperage	120/208 VAC, 139 A	KC raw water inlet	0.75 in (19 mm) OD
Phase/power factor	Std: 3/0.8 (Opt. 1/1.0)	KC coolant inlet / outlet	1.65 x 1.5 inch OD
Voltage regulation	±1%	Fuel inlet and return	0.25 inch NPT female
Lugger L944T Engine		Weight and Height	
Туре	Vertical inline 4 cylinder diesel	Approximate dry weight	1,332 lbs (604 kg)
Displacement	202 in <sup>3</sup> (3.3 ltr)	Length	59.7 in (1517 mm)
Bore/Stroke	3.7/4.7 in (94/120 mm)	Width	26.2 in (666 mm)
HP @ RPM	60 @ 1800	Height	34.2 in (870 mm)
Approx. fuel use 1800 RPM @ full load <sup>2</sup>	3.4 gph (12.9 lph)	<ol> <li>Based on SAE J1995 and ISO 3046.</li> <li>Actual fuel consumption will vary depending on operating conditions</li> </ol>	
1800 RPM @ half load <sup>2</sup>	1.8 gph (6.8 lph)	* Available only for Export – non-US flagged.
