

# COMMITMENT TO COMMERCIAL OPERATORS

Northern Lights Commercial Series Marine Generator sets  
20-300 kW @ 1800 RPM

- **Northern Lights has been manufacturing complete generator-sets since 1958.** Our generators are the most simple, durable and reliable on the market.
- Northern Lights generators are known for their **serviceability and reliability**. Our products are backed by an extensive support network.
- Northern Lights has made a **long-term investment and commitment by opening our Northern Lights Gulf branch** in the New Orleans area. We are committed to **servicing our commercial customer base** by stocking our generators and parts, both of which are readily available.
- Service is our main priority. Northern Lights Gulf has a **full-time service manager on staff** in the event his assistance is needed by an operator or service company.
- Our generators are **thoroughly factory tested and ready to operate upon installation**.
- Northern Lights is an ISO 2001: 2015 manufacturer certified by LRQA. We are **committed to investing in the latest updates and manufacturing standards**.
- Northern Lights **service dealers are factory trained and authorized**. We also offer **service and maintenance training** to fleet operators often at minimal to no cost.
- Northern Lights **offers the option of Stamford or Marathon Generator Ends** in our commercial products at one common price.
- Northern Lights offers an **outstanding warranty program** which allows unlimited hours during the first year of operation.
- **Experienced engineering and high-quality components** reduce belts and hoses to a minimum.
- Single piece cast iron heat exchanger, expansion tank and exhaust manifold **resistant to corrosion and electrolysis**.
