

M50T13SL

50 kW (60 Hz, 1800 rpm) 50 kW (50 Hz. 1500 rpm)

FEATURES AND BENEFITS

- EPA Tier III and IMO Tier II compliant
- Four cylinder, inline, liquid cooled, overhead valve, marine diesels based on heavy-duty industrial engine
- Balanced, forged crankshaft with induction hardened journals and rolled fillets for long life.
- Replaceable, wet liners for long life and low rebuild costs.
- Bimetallic calves with chrome stems and rotators.
- Replaceable valve seats and guides.
- Three ring aluminum alloy pistons with Ni-Resist insert for the top ring. Keystone piston rings reduces carbon buildup under light loads.
- A single ploy-vee drive belt powers the alternator and jacket water pump.

FUEL SYSTEMS

- High pressure common rail fuel injection for smooth, clean delivery.
- Direct fuel injection system.
- Ring clamp fuel filters with air bleed and drain.
- Diaphragm-type, mechanical fuel transfer pump with manual priming lever.

LUBRICATION SYSTEM

- Positive displacement gear-type oil pump.
- Full flow, spin-on oil filter.
- Oil spray cooling reduces piston crown temperature.
- Jacket water, plate-type, full flow oil cooler reduces heat and prevents lube oil breakdown.
- Large capacity oil pan.
- Closed loop crankcase vent traps oil vapor to keep the engine room clean.

AIR SYSTEM

- Dry air filter silences intake noise.
- Turbocharger with jacket water cooled turbine housing for safety.

COOLING SYSTEM

- Heat exchanger with keel-cooled option.
- Gear driven seawater pump with self-priming flexible impeller. Bronze with stainless steel shaft.
- Cast-iron expansion tank.
- Two thermostats for quick warm-ups and safety.
- Cast-iron exhaust manifold for reliable temperature

ESP AND DC ELECTRICAL SYSTEM

- Negative ground, 12 volt DC system has circuit breaker, starter motor and alternator with regulator.
- Low oil pressure and high coolant temperature safety
- Optional control panels help you specify the amount and type of information required. Comprehensive list of optional alarms and safety shutdowns.
- Optional DC logic system for simplified maintenance.
- Optional pre-wired engine, panel with terminal strips.

AC GENERATOR

- Direct coupled, single bearing, 12 lead, reconnectable AC generator. Maintenance free brushless design.
- All NL generators meet or exceed class society standards with Class "H" insulation, accessible diodes, oversized ball bearings, marine grade shafts and conservative 90°/50° heat rise ratings. PMG is standard equipment.
- Engines and generators are torsionally matched for
- Automatic voltage regulator, ± 1% regulation over the entire range from no load to full load.
- Configured for 0% isochronous droop with integral electronic governor control supplied by ECU.

SPECIAL EQUIPMENT

- Welded steel base frame.
- Sparkling white polyurethane paint.
- Operator's and parts manuals.
- Optional sound enclosure for industry best sound and vibration attenuation in a compact design.

| AC Output | M50T13SL | M50T13SL |
|--|---------------------------------------|---------------------|
